

Recycle Your Unwanted Mobile Phone

Raising Funds For Charity

Choose Your Charity

Let us know your chosen good cause and we will make a donation of £3 for each working mobile phone you send us.

Help Protect The Environment

If you throw your phone in the bin, it will end up in landfill where toxic substances will leak out and harm the environment. The phones will be sent to developing countries where the cost of new mobile phones are too expensive for many people.

Recycling Made Easy!

Send free of charge to the address below. Package your phones in an envelope or cardboard box and send via The Post Office. Don't forget to include your chosen good cause (or reference number if you have already registered on our website).

Phone us free of charge to arrange for a courier to collect, we pay the cost of the courier.

Visit our website for further information on recycling, raising funds, starting a recycling campaign and how to send your phones to us.
